1. Logging into SchoolMoney

To log into your **SchoolMoney** account on a mobile phone, you will first need to open a webpage on your device and enter the following address:

www.schoolmoney.co.uk

This will take you to our website.

To be taken to the login page, click on the button in the top right hand corner that says **'PARENTS—CLICK HERE TO LOGIN.'**

This will take you to the login page.

To login you need:

- A mobile number
- An email address
- A password

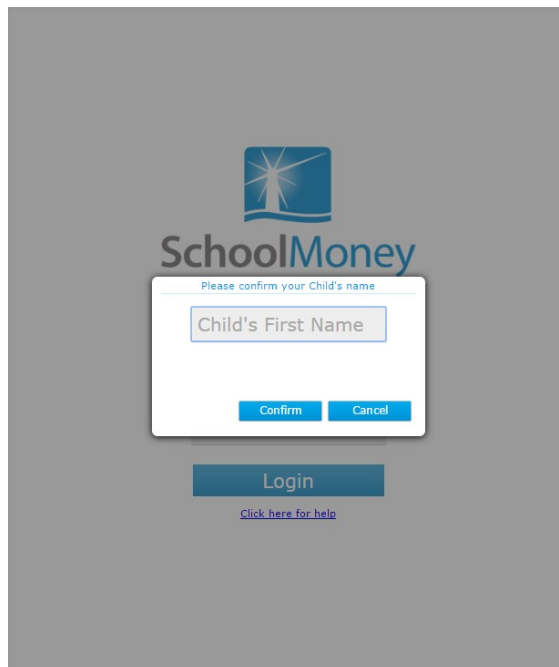

Input this information in the required fields and select 'Login.'

Please note: The school will have sent you a password via text/email. If you have not received a message with a password in it, please contact the school directly to request one.

A pop up box will appear asking you to enter your child's name.

Please only enter your child's **First Name**. This needs to be spelt in the same way as the school has it entered on their system. E.g. If the schools records have your child's name spelt as Samuel you should not enter Sam.

Select 'Confirm' and you will be logged into your **SchoolMoney** account.

Please note: If for any reason it won't allow you to log on, we would advise that you contact your school to double check the mobile number/email address that they have recorded against your child on **SchoolMoney**. If you are entering different details to the school, you will be unable to login until the school change your child's details.

Once you have logged into your account, you will then be able to make payments for your child.

If you have more than one child that attends the school then their payments will show beneath their names. Names are listed alphabetically.

Any dinner arrears that your child has accumulated will appear first on the list, followed by payments that the school has set up for things such as trips, clubs and fees.

To pay for an item select the + sign next to the payment. This will add the cost to your total in the bottom right hand corner of the screen, add the payment to the basket, and turn the payment yellow to show that it has been selected.

8. FAQ

Do I have to pay online?

Your child's school will advise you whether they are going completely cashless or not. If not, then you will still be able to pay by cash or cheque in the school office. If you are unsure, it is best that you check with the school directly.

Do I have to pay for the whole expense in one go?

The school may set the payment to allow partial payments or payments by instalment. This is up to the school and depends on what they are asking you to pay for.

What happens if I change my mobile number or email address?

If you change any of your contact details, you need to let the school know as soon as possible. If they do not have the correct contact details for your child then you may not be able to access your **SchoolMoney** account and you won't receive message updates from the school.

Does SchoolMoney store my card details when I make a payment?

SchoolMoney never stores card details, making the process of paying for your child's school items highly secure. Each time you start the payment process you will need to input your card details.

What happens if I have more than one child at the school?

You will receive a password for each child that you have registered at the school. However, if you sign in under one child's details then all of your children will be registered on the account. This enables you to pay for every child at once, not just the one you have signed in with. This is done automatically.

What happens if I forget my password?

If you have forgotten the password that the school has sent out to you or you have deleted the message then you will need to contact the school directly. They will be able to issue you a password reminder.

Can I change my password?

You cannot change your **SchoolMoney** password. The system automatically generates the password for you and it stays the same for the duration of your child's stay at the school.

Do you offer the facility to pay by PayPal?

We do not currently offer the facility to pay by PayPal. If you would like more information on which payment methods the school allows other than online, you will need to contact them directly.

Do you offer the facility to pay by PayPoint?

PayPoint enables you to pay for your child's trips, dinners, etc without using the online facility. You will need to contact your child's school and request a PayPoint barcode sheet. Once you have this sheet, take it to your local PayPoint and ask them to scan the relevant barcode. You can pay by cash or card.

Can I access the website on multiple devices?

Yes! You can use your computer/laptop, your mobile phone or a tablet. As long as you have access to the internet, you will be able to log in and pay.

What happens if I pay for the wrong thing?

If you have paid for the wrong item or on the wrong child, you will need to contact your child's school and explain to them what has happened. They will either be able to move the money as requested, or process a refund so that you can pay for the correct payment.

What if the school doesn't have my mobile number or email address?

If the school doesn't have either of these details, they cannot contact you with your password. You need to provide them with one of these options at the least. If they have your mobile number but not your email address you can input this into the login page and these details will be saved against your child's record.

What happens if I can't log on because of 'Invalid Login Details'?

If you are receiving the error message telling you that you have invalid log in details, it will be because one of the fields you are entering is incorrect. The mobile number and email address that you are entering has to match the details that the school has against your child's record. If they do not match it will not allow you to log in. We advise that you contact the school to double check these details and request that they resend your password to you.

Who do I contact if I need help?

If you have questions or need help with anything, you must contact your school directly. They will be able to answer your questions or pass the information over to us.

What happens if I am separated from my partner and we both want to pay?

At the moment we only allow one account per child. If you do not want to share your login details with an ex-partner, we would advise that they use other forms of payment such as PayPoint or card within the school.

I am logging in with one child but cannot see my other children, what is wrong?

If your children attend the same school but you cannot see them when logging in, it will be because they are not linked as siblings on the **SchoolMoney** system. To link children as siblings the mobile numbers and email addresses need to be the same. We advise that you contact the school and ask them to check that all of your children's details match.

I know that I am in credit and would like a refund, how do I do this?

If you can see that there is a credit on your account and you would like that money back, you will need to contact the school directly. Only the school can process this refund back to you.

I want to pay using childcare vouchers. How do I do this?

Currently there is not the facility to pay using childcare vouchers through our online system. You can let the school know and they will mark this on manually for you.
